

Cricut Machine: One Color Vinyl Shirts

Materials Needed

- Iron on Vinyl (We use Cricut Iron on Vinyl or Cricut Value Vinyl, but there are many different brands that also work.)
- Shirt of Choice. Item can be 100% cotton or a blend. Short sleeved, long-sleeved, t-shirt or sweatshirt material.

Creating a Vinyl Shirt Design in Canva: (You can use your favorite design software.)

- 1.) Click purple "Create a Design" button in the top left corner and choose custom size at the bottom of the drop down list.
- 2.) Change units from "px" to "in."
- 3.) Change dimensions to 12 x 12. This will vary depending on the size of your vinyl and design. 12 inch wide is standard for most vinyls.
- 4.) Create a design! For this, you want to create a one color design, using text, shapes and silhouettes. (This is for one color vinyl projects.)
- 5.) Save file as a .jpeg or a .png file.
- 7.) Files to be cut can be brought on a USB drive, emailed, or AirDropped. You will also need your vinyl and item to place design on.
- 8.) Schedule a time to cut designs on the Cricut machine
 - Set an appointment during the week: www.bit.ly/makerspacetpl
 - Saturday Open Hours: Visit the Calendar of Events at tredyffrinlibraries.org to sign up for a time slot.
